About us

Revida Maison is a company founded in Dubai in 2026, specialising in interior design and in the renovation, upgrading and furnishing of spaces. We help property owners turn their needs into practical, coherent spaces, whether to live in, rent out or sell, by linking design with the choice of materials and furniture and with close follow-up of the works.

We work with a specialised engineering team, in collaboration with a network of contractors, factories and suppliers. We take care that colours, materials and furniture work in harmony, and we follow both the visible and the hidden details of the works, because the quality of a space starts with work the client may never see and is completed by the final finish.

Vision and mission

Our vision

For Revida to be one of the leading companies that clients trust to take over their property, develop it and hand it back on the agreed date, with high quality and a design in which colours, materials and details work in harmony.

Our mission

To provide a complete design, renovation and furnishing experience led by a specialised engineering team, who follow the project from understanding the client's needs through to handover, with care for the finest details, quality of execution and commitment to the approved schedule.

Our values

Trust and responsibility
in managing the property

Commitment
to the agreed dates

Precision
in the visible and the hidden details

Quality
in materials and execution

Harmony
between colours, furniture and finishes

Clarity
in communication and costs

Our services

Interior design and space styling

Developing interior ideas and concepts, and coordinating colours, materials and furniture layout to suit the client's needs and the nature of the space.

Renovation and upgrading

Coordinating the upgrade of kitchens, bathrooms, doors and wardrobes, together with painting, finishes and wrapping, in collaboration with specialised contractors and suppliers.

Furnishing and fit-out

Selecting and coordinating furniture, curtains, rugs, lighting and decorative pieces, and preparing properties for use according to their intended purpose.

Our services

Bespoke joinery

Coordinating the design and making of kitchens, wardrobes, TV units, desks, shelving and special timber features, through our specialised partners.

Execution management and coordination

Following up measurements, quotations, materials, supplies and the stages of execution, and linking the client's requirements with the work of contractors and suppliers through to handover.

How we work

01
Understand
The client's needs, an inspection of the property and measurements.

02
Concept
A suitable concept, with the options and prices coordinated.

03
Approval and planning
Approval of the details, and organisation of the works and supplies.

04
Execution
Following the progress of the works and every comment along the way.

05
Handover
A final inspection, and the property prepared for handover.

CONCEPT IMAGE

Quality and safety

Before works are closed up or covered by finishes, we review the measurements, materials and technical details, and we follow the quality of installation and every comment through to handover.

We also take care to protect existing elements, keep the site clean and respect the building rules, and we coordinate with contractors on the safety measures appropriate to the works.

Why Revida

A specialised engineering team that follows the works.

Care for the details the client sees, and for those they do not.

Works and supplies planned around the agreed handover date.

One management that brings design, supply and execution together.

The harmony of colours and materials, linked to practical needs.

Management and team

The Revida team combines experience in management, design and on-site engineering supervision, with specialist support in accounting, marketing and IT.

Loay Aldimashky GENERAL MANAGER

An entrepreneur and a graduate of the Faculty of Economics at Damascus University, he studied accounting and specialised in business and project management. He began his career in Qatar in 2014, working for contracting companies, and in 2018 founded his own landscaping company, delivering large projects for private villas, government entities and Doha Municipality.

He moved to Dubai in 2021 and founded a holiday homes company which, within five years, grew to manage and furnish more than 130 apartments. This experience deepened his understanding of property owners' needs, of furnishing and operating requirements, and of quality in everyday use.

Driven by his passion for furnishing and his wish to leave his own mark in the field, he turned his focus to design, renovation and furnishing through Revida. He manages the company, leads communication with clients and oversees projects, drawing on his earlier experience in contracting, entrepreneurship and property management.

Management and team

Eng. Ghazal Zaher Aldeen

PROJECT DIRECTOR

An Architectural Engineering graduate of 2021, with professional experience in construction, engineering consultancy and interior design. As Partner and Project Director at Revida Maison, she leads the design process, oversees project execution and manages every detail from concept to completion, combining technical expertise with creative vision to deliver elegant, functional and thoughtfully designed spaces.

Shady Gebara

CO-FOUNDER

One of the two co-founders of Revida Maison Interior Design.

Eng. Hikmat Aldimashky

SITE ENGINEER

He follows site works, measurements and the quality of finishes, coordinates with contractors and suppliers, and links on-site details with the designs and the project's requirements.

Accounting, marketing and IT

Partnerships and delivery capability

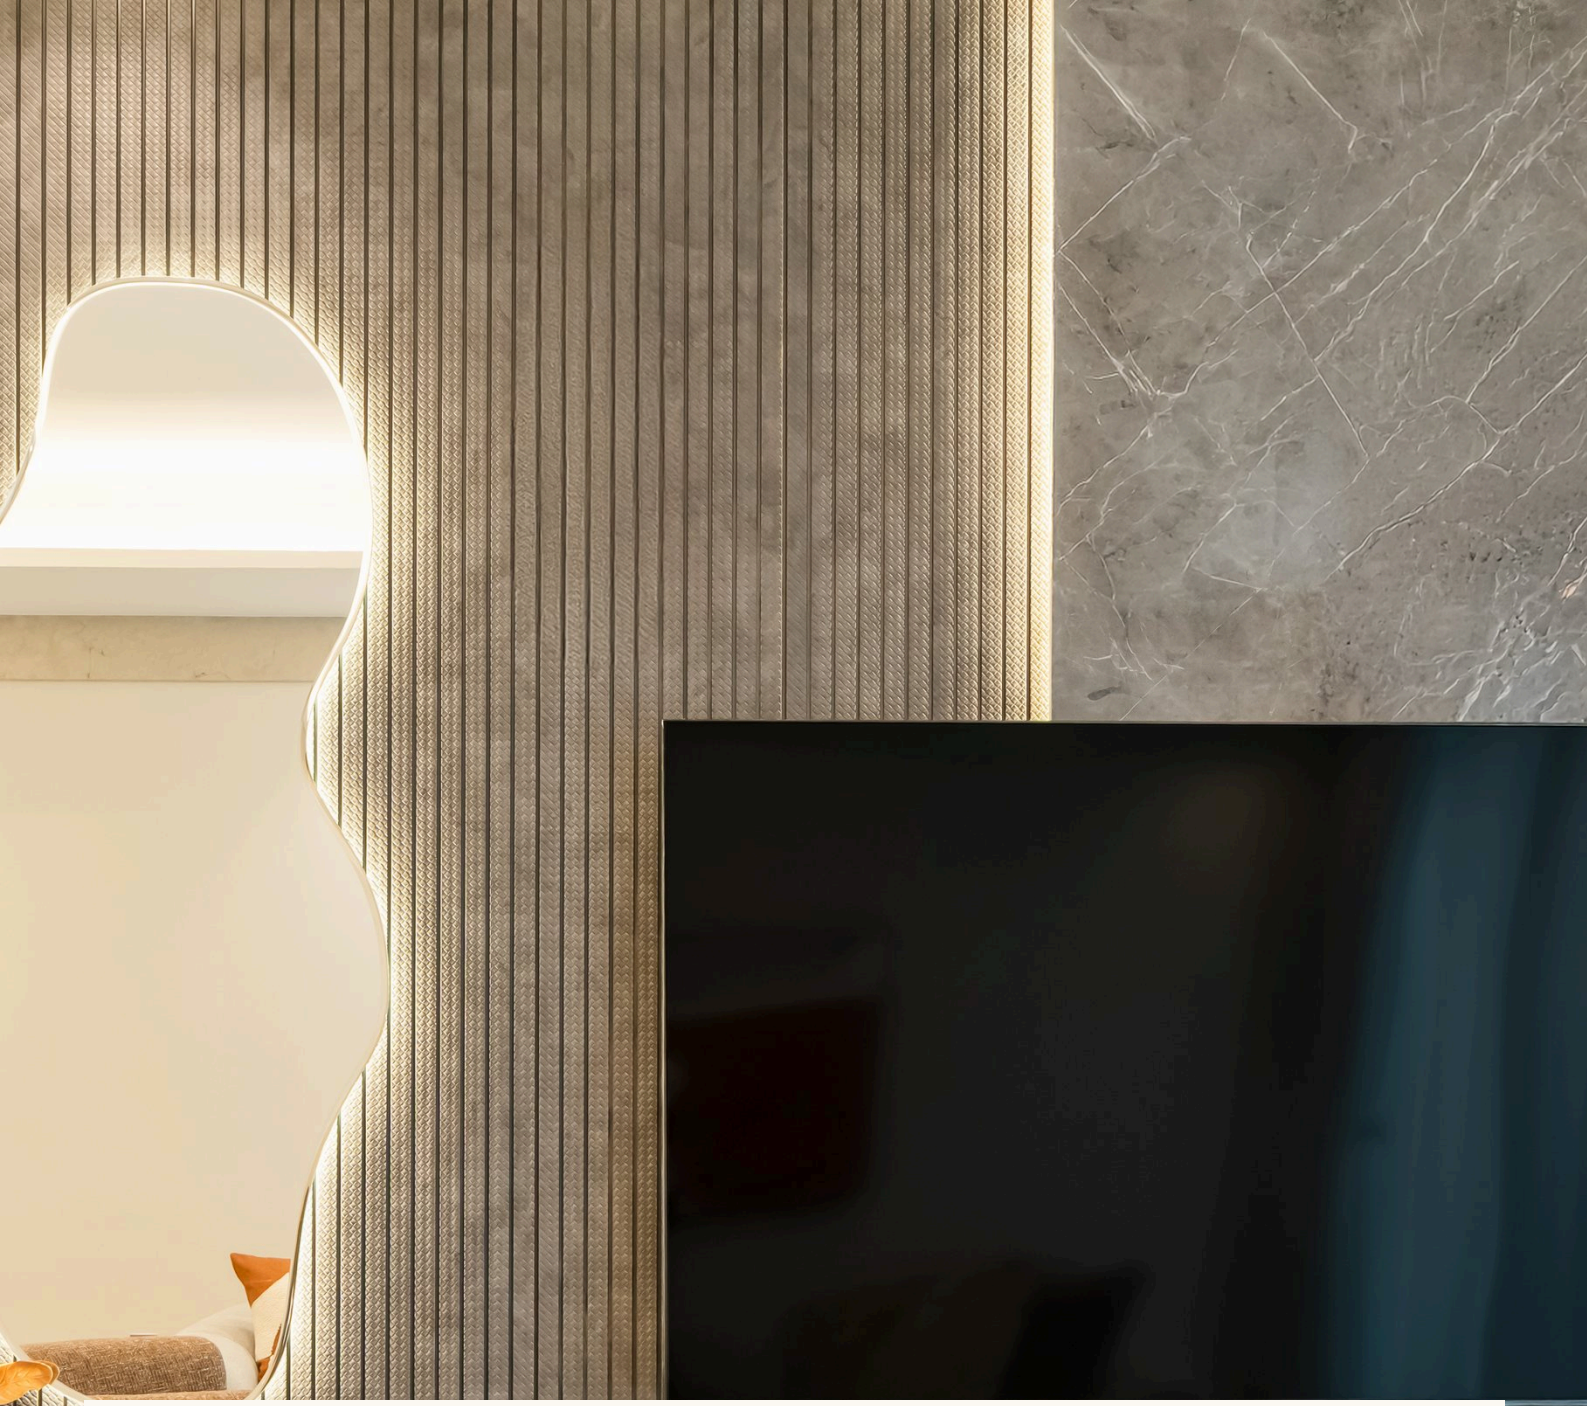

Revida's ability to coordinate projects rests on a network of partnerships, contracts and supply relationships with furniture companies, factories, joinery workshops and specialist firms in the UAE. This network offers a wide range of solutions and materials, helps coordinate supply and execution efficiently, and supports high quality within the approved schedules.

Casamia

A company offering a wide range of furniture from leading Italian and European brands, along with many types of high-quality tiles and porcelain. This relationship gives Revida varied options for coordinating furniture, surfaces and finishes within one coherent vision for each project.

Casanova

A company specialising in Italian furniture, with a range of modern designs and high-quality products. Its collections support furnishing solutions suited to the character of each space and the client's preferences.

Partnerships and delivery capability

THE WALLS

Revida has a contractual partnership with the company covering joinery, kitchens, wardrobes and bespoke woodwork, including the curved timber features known as curves. This partnership supports elements made to each project's measurements and details.

A wider partner network

Beyond these, Revida works with specialised suppliers and contractors to meet each project's needs for materials, fittings and services. We coordinate and follow this work to speed up delivery and keep quality consistent across every stage of execution.

Arman Company and Factory

A specialist partner supplying high-quality porcelain, washbasins and bathroom mixers, supporting the fit-out of bathrooms and the coordination of materials and fittings to suit each project's requirements.

Managing execution

Factory and workshop work is carried out by partner and contracted firms, while Revida handles coordination, management and follow-up with the client. This model lets us choose the right specialism for each part of a project and scale resources to the size of the works.

Selected projects

Apartment in Vida Residences Dubai Mall

RESIDENTIAL APARTMENT, DUBAI · 1,950 SQ FT · DELIVERED IN 2026 · COMPLETED

Client brief

To update the apartment and refit it with furniture, finishes and interior elements suited to its use.

Scope of work

Removal of the previous furniture, painting, wrapping of doors and wardrobes, joinery including TV units, desks and shelving, curtains, lighting and bathroom accessories, air-conditioning maintenance, fit-out and final cleaning.

Challenge and solution

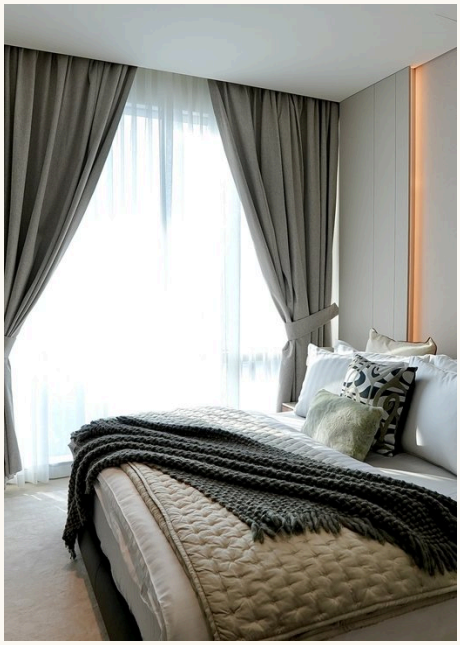

The project required several trades to be coordinated within a short period and within the building's work rules. The sequence of works and supplies was planned, and the joinery, wrapping and fit-out teams were coordinated to complete the project.

Result

The upgrade and fit-out were completed, and the apartment was handed over after final cleaning.

Vida Residences Dubai Mall

CONCEPT IMAGE

Apartment in Da Vinci Tower by Pagani

BUSINESS BAY, DUBAI · FOUR BEDROOMS AND A MAID'S ROOM · 2,500 SQ FT · COMPLETED AND HANDED OVER

Client brief

To furnish the apartment to suit the nature of the property and how it will be used.

Works delivered

Furnishing the apartment; designing and making the bed headboards, dressers and TV unit; fitting out a storage room for valuables; and installing a smart home system.

Design idea

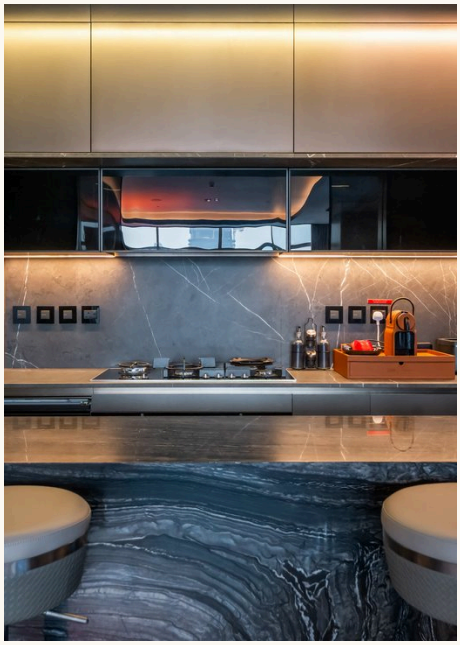

Combining furniture with joinery designed for the project, and building storage needs and smart technology into the apartment's interior fit-out.

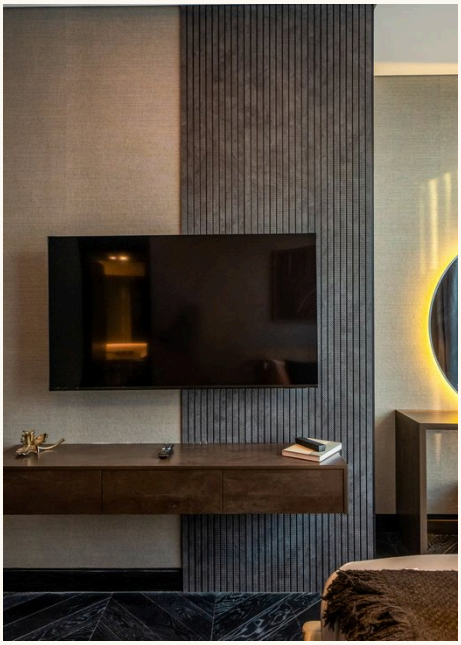

Result

The works were completed, and the apartment was handed over once the furniture, joinery, storage and smart home system were in place.

Da Vinci Tower by Pagani

Renovation and furnishing projects

Apartment renovation in Al Khor

DUBAI · IN PROGRESS, 2026

3,500	4	1 month
sq ft	bedrooms, plus a maid's room	target duration

Client brief

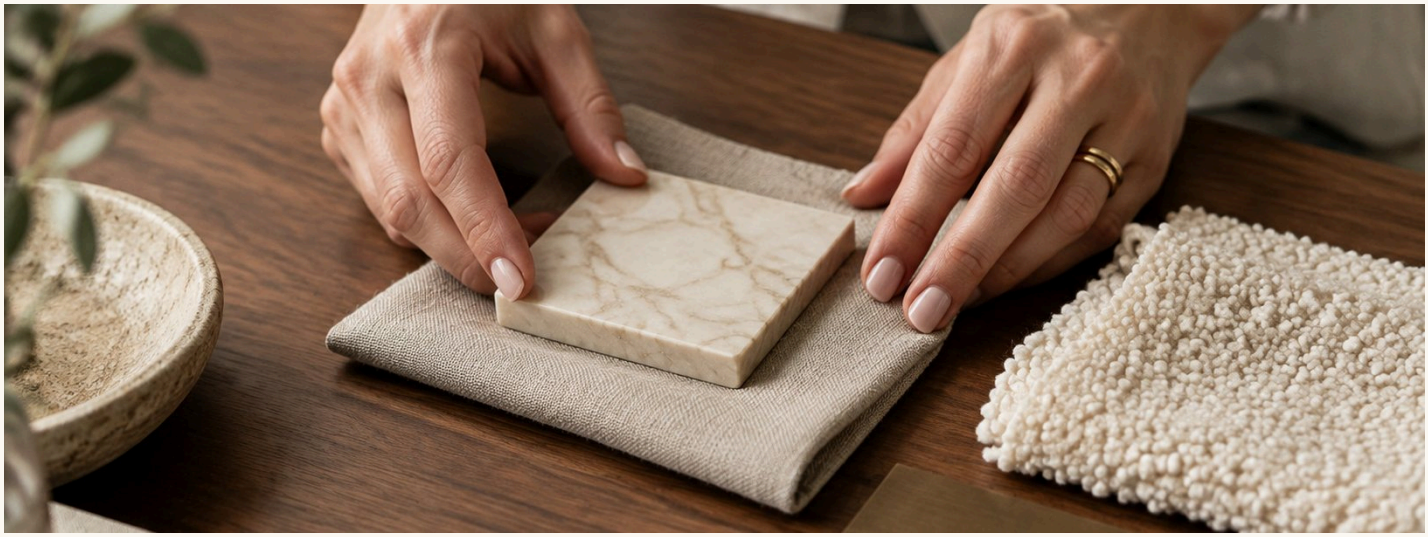

To update and fit out the apartment by coordinating the renovation works and the choice of materials and furniture.

Scope of work

Replacing the kitchens and bathrooms and refurnishing the apartment, together with removing furniture and wallpaper, repainting, updating the lighting, doors and wardrobes, and coordinating the curtains.

Challenge and approach

Coordinating a wide scope of renovation and furnishing within a one-month programme, and aligning the owner's choices with the progress of the works. Measurements, materials, supplies and contractors are followed so that every stage fits together and the required result is reached.

CONCEPT IMAGE

Apartment in Nobles Tower

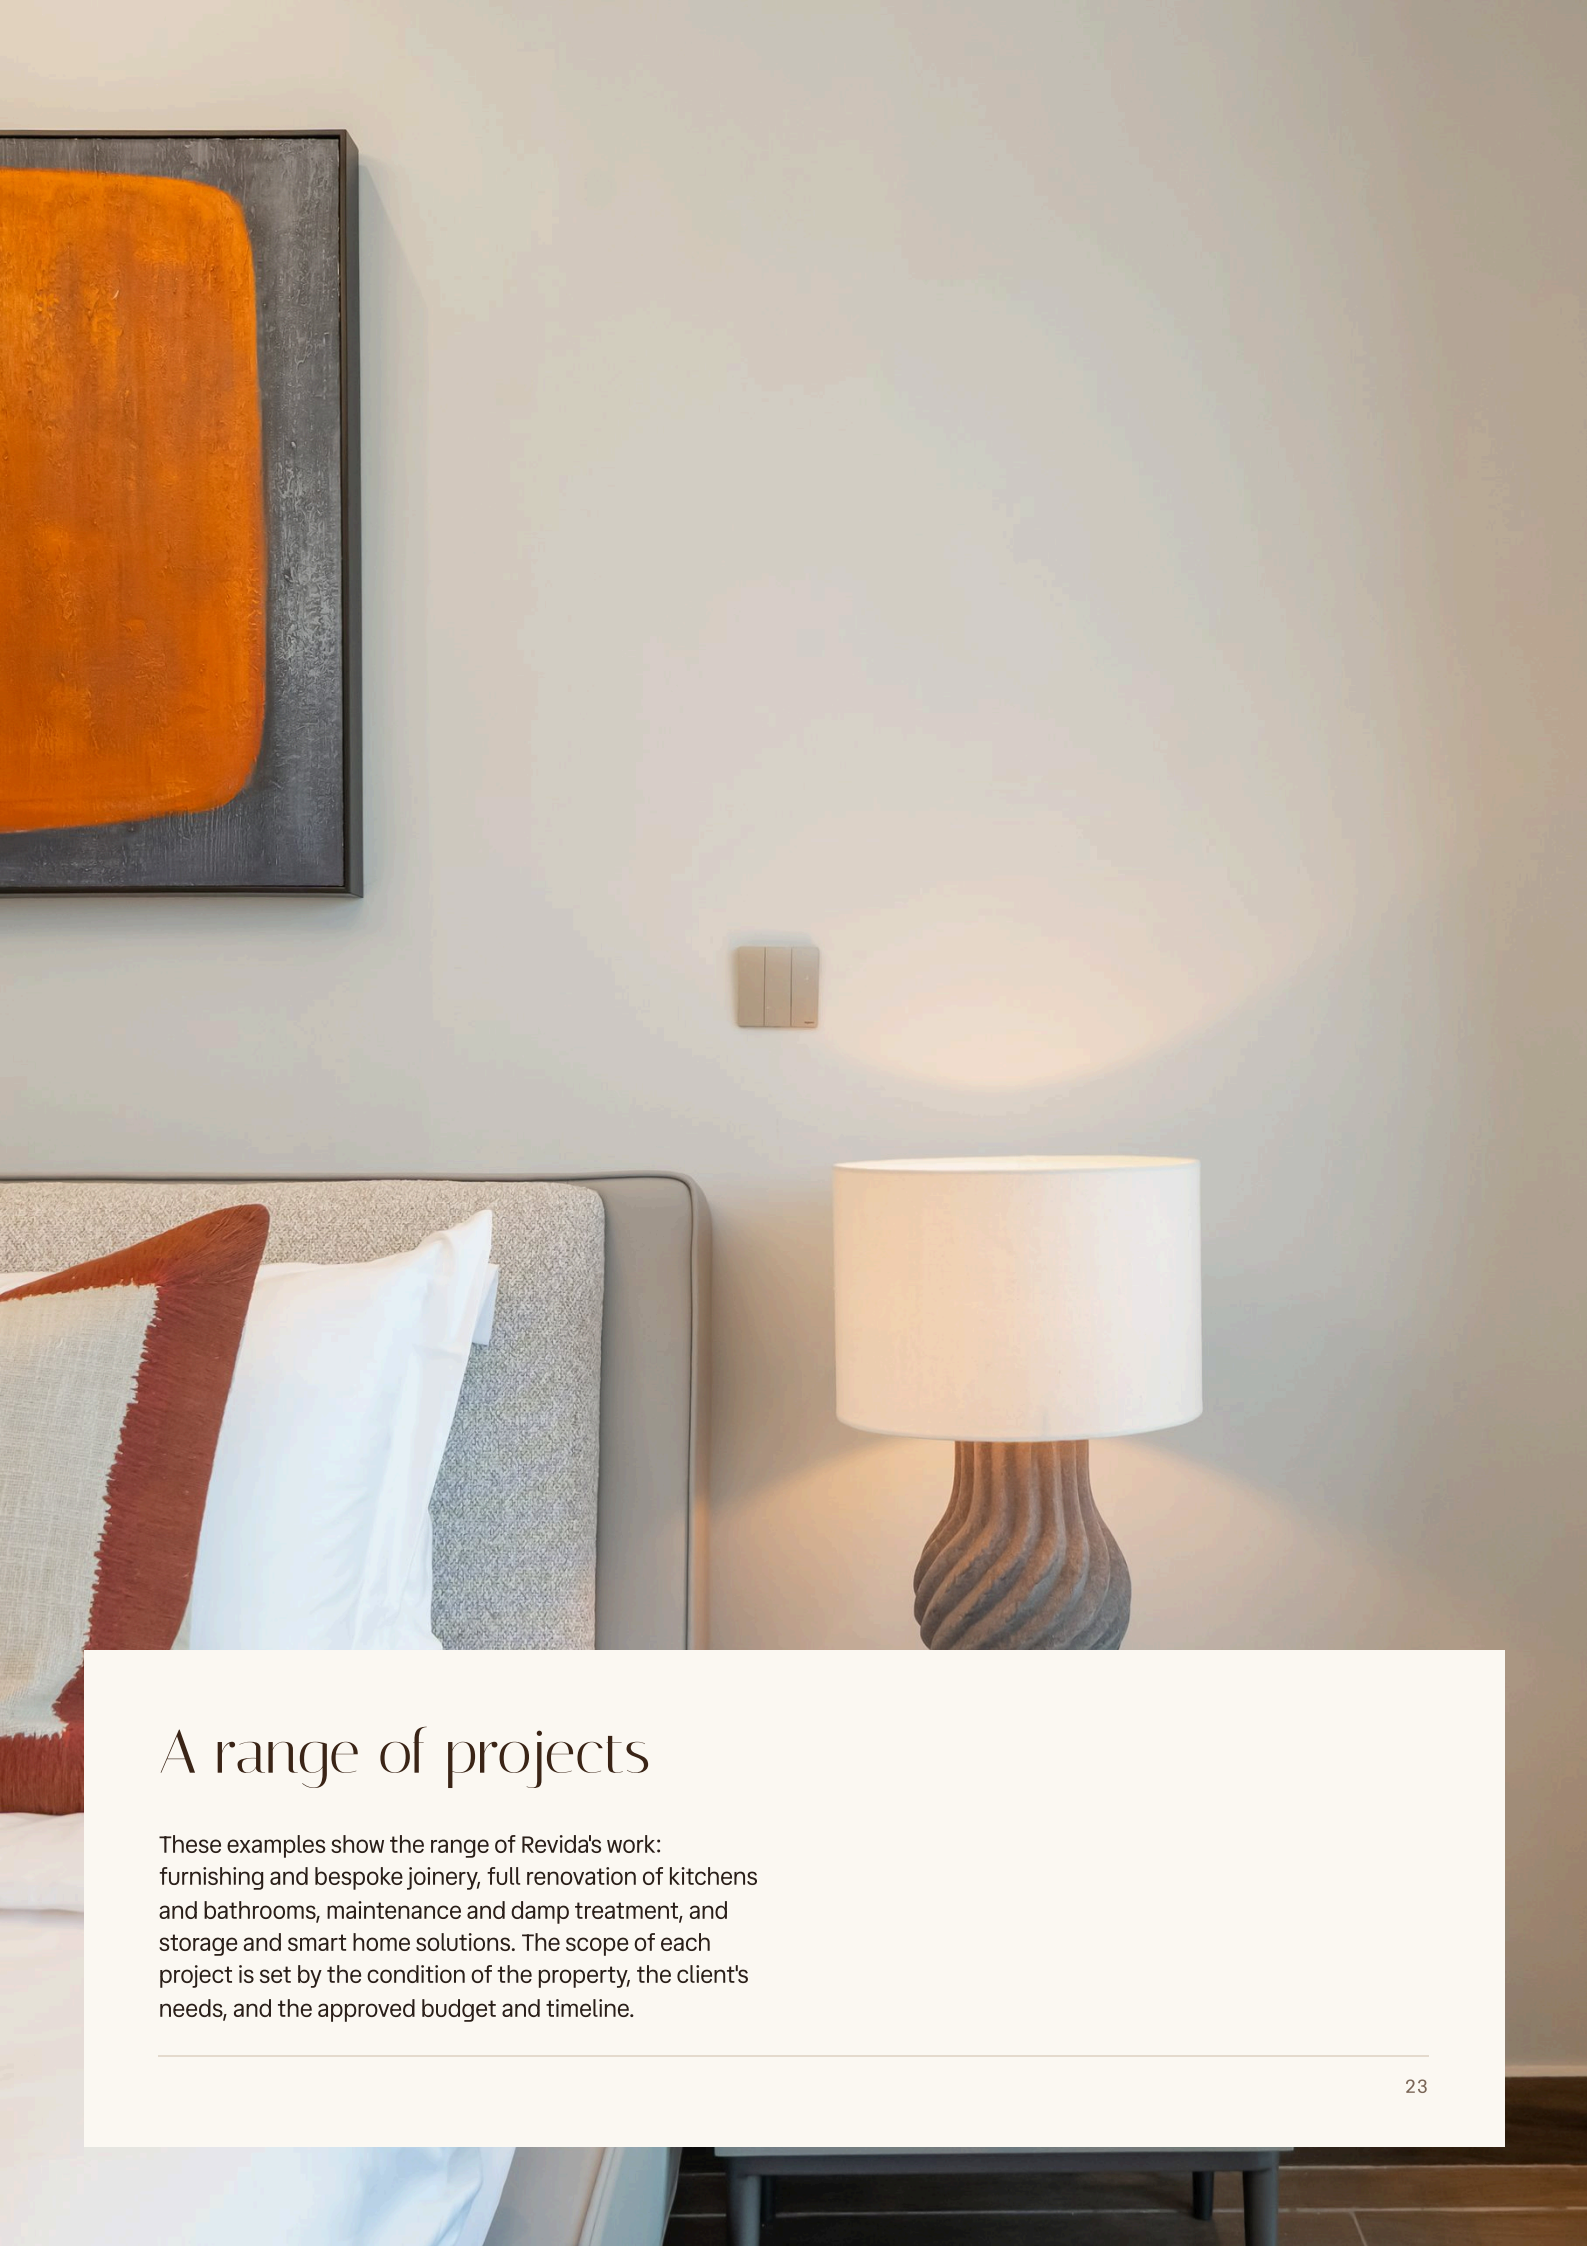

BUSINESS BAY, DUBAI · ONE-BEDROOM APARTMENT

Project scope

Renovation and furnishing, with maintenance work and damp treatment.

Focus of the work

Combining the property's technical needs with the renewal of its interior, so that furnishing and finishing work goes hand in hand with maintenance and quality of use.

A range of projects

These examples show the range of Revida's work: furnishing and bespoke joinery, full renovation of kitchens and bathrooms, maintenance and damp treatment, and storage and smart home solutions. The scope of each project is set by the condition of the property, the client's needs, and the approved budget and timeline.
